LAWRENCE PAUL NAMED COMMITTEE CHAIRMAN

Clay Ward Alderman Elected Head of Council Body on Dock, River and Harbor.

On motion of Alderman Christian, of Madison Ward, Lawrence Paul, a member of the Board of Aldermen from Clay Ward, was unanimously elected chairman of the Council Committee on Dock, River and Harbor last night, succeeding George Rogers, transferred to the Finance Committee. Councilman Sullivan, of Jefferson Ward, was selected subcommittee. In nominating Mr. Sullivan, Alderman Ordway Puller said that he thought the next subcommittee should come from the East End.

I thank you for the honor you have conferred on me, said Mr. Paul, and I assure you that it is appreciated. With your help we will make a great success of the committee. I believe that if we can work together, and work with our Congressmen as we have in the past, we can do a great good and make a great success of our work.

A resolution was adopted instructing the clerk to advise Representative Montague and Senators Swanson and Martin that the committee and the city generally stood ready at all times to assist them in any way possible in their fight for James River improvements, even to making a trip to Washington in the interest of the project.

Chairman Paul was requested to appear before the Administrative Board and secure its permission for the use of the city tug on June 24 for an inspection tour of the James River and harbor.

WALSER NOT NOMINATED

Second Primaries Will Be Held in Sixth and Tenth North Carolina Districts.

[Special to The Times-Dispatch.]
RALEIGH, N. C., June 8.—There will be no second primary in the Seventh Congressional District. U. L. Spence, second in the balloting last Saturday, wired L. D. Robinson to-day from Raleigh, "I will not demand a second primary and I congratulate you and pledge you my hearty support."

It develops that there has been no nomination for Congress in the Tenth District, where it was thought that Z. V. Walsler had won over M. H. Justice and other aspirants. The State Board of Elections found to-day that Walsler, the official returns from Buncombe, Swain and Cherokee still out, Walsler lacks 2,200 of having a nominating majority. Judge M. H. Justice is second, with about 2,300 votes. Chairman Lamb of the board, says the missing returns cannot possibly give Walsler his majority.

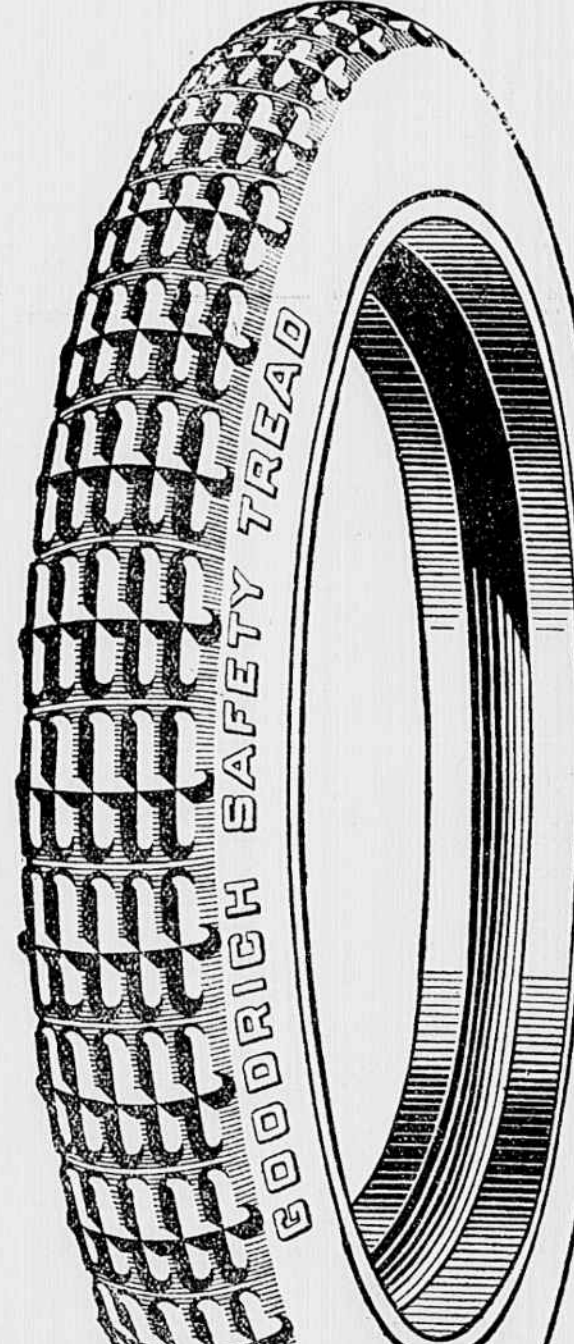

As matters now stand the second primaries will be in the Sixth and Tenth Districts. The board sent official notices to-day to Congressman Godwin and J. A. Brown that they will have to enter a second primary in the Sixth.

"Single-Cure" Tires which are NEVER Over-Cured

GOODRICH Fabric Tires of today are made by the same "Single-Cure" Process as in 1900. But, such Process demands Skill.—Expert Workmanship,—that Accuracy of treatment which proceeds chiefly from a long Experience with it.

The long-experienced Goodrich Operator knows the precise temperature, and temperamental conditions of Fabric and Rubber,—which admit of Vulcanizing these two factors together AT A SINGLE "CURING."

So, he can and does, SINGLE-Vulcanize them, without producing the internal "Blisters" and other hidden "defects," that alone excuse the double-cost, and double-risk, of "Double-Cure" or Vulcanization on Vulcanization.

Naturally, the largest Rubber Factory in the world should have (out of its 47 year Experience) developed the ablest Operatives, as well as the most efficient and economical Processes.

Naturally, too, this Experience and Efficiency, coupled with a 50% greater Pleasure Car and Truck Tire Output (latest fiscal year) than that of any other Rubber Concern in America, produces such Volume of Tires at the lowest feasible cost, per Tire.

GOODRICH Ideals, Principles and long-proven Business Policies, result in the benefit of that lower cost being given TO CONSUMERS.

Because,—47 years' experience in Mfg. and Selling Rubber Goods demonstrates that "Time" levels down all Excess Profits.

It does that through limiting VOLUME of Output. And,—VOLUME is the chief factor in reducing Cost of Production.

—The Maximum Value, to Consumers, with a fair profit to both Dealer and Manufacturer!

That Goodrich Policy has been Father to the REPEAT-ORDERS which have for 47 years maintained the B. F. Goodrich Co. Factory, at Akron, O., as the largest Rubber Factory in the World, and the most conservatively-successful.

From that Policy, consistently worked out, proceeds the relatively Low Prices quoted below, on the highest-grade Fabric Tires that Money and Skill can build.

Let no one "CONVERSE" you out of the advantage they mean to YOU.

Young people need clear complexions

If you find yourself "left out" because of a poor skin, and want a clear, fresh complexion, use Resinol Soap at least once a day. Wash thoroughly with a warm, creamy lather of it, then rinse the face with plenty of cold water.

It does not often take many days of such regular care with Resinol Soap to show an improvement, because the Resinol medication soaks and refreshes the skin, while the perfectly pure soap is cleaning it.

should be aided by a little Resinol Ointment, in severe or stubborn cases. Resinol Soap and Ointment are sold by all druggists. For trial free, write to Dept. 24-R, Resinol, Baltimore.
